

## **Personal Statement -**

My name is Cristhian Hernan Rueda Yepes, I am a 27 year old business owner and an investment project manager. As of the current moment I am actively living at 25313 Staddon line. This address is located in West Lorne, Ontario where I have been the owner of the property since May 20th of the year 2020.

On account that I have been a registered business owner and CEO in Canada since the year of 2017 with my corporation Yep Truck Tech Inc, it is safe to say that I have had to overcome many different obstacles along with a 6-year trajectory of learning a variety of different skill sets. Yep Truck Tech Inc is primarily based around a technical support service which has allowed me to understand how to deal with the general public at a professional level as I have had to troubleshoot and diagnose both small and large issues towards achieving the true growth of a corporation in Canada. This includes learning step by step how to negotiate contracts for satellite workers, file taxes at a corporate level with licensed accountants and understanding the laws behind the formation of a business in Canada.

Ever since my arrival to this municipality, I have been dedicated to executing and finalising an investment project beside the home hardware in the main-street of the town. The project mentioned above consists of the purchase and renovation of the building at 234 Graham Road, West Lorne, Ontario, Canada.

This activity has not only consumed me for more than two 2 years, but it has also given me the opportunity to get to know in depth the social and developmental needs of our community. Furthermore, it has taught me to be in complete understanding of the necessary financial and structural organization that is required to carry out the growth of the real estate market in West Elgin.

Taking into account the previously stated, this investment project has given me vast education and experience in the field of project management. This is simply due to the fact that I have had to manage a variety of professionals in many industries related to growth and development such as contractors, plumbers, electricians and more. Following my decision to participate as a candidate I would greatly appreciate that the council has the opportunity to evaluate my resume. After the analysis has been made and counting that the council considers it convenient, I will be designated to fill the vacancy, which you are going to proceed to fill.

With my current knowledge and experience, I am well-equipped to serve as a member of the council. Included within my portfolio, I have a proven track record of bringing diverse stakeholders together to achieve common goals and finding innovative solutions to complex challenges. If elected, I will work tirelessly to represent the interests of all residents and ensure that our community continues to thrive.
