To the West Elgin Council,

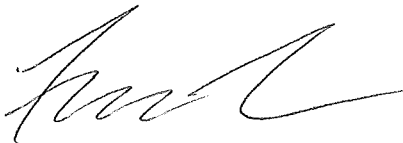

My name is Trevor Lee. My family and I have recently moved to the West Elgin municipality in June of 2022 and reside in Rodney. We love the community and see ourselves being here for a long time. With that said, we felt that one way to be able to give back and help with the growth and future of this municipality is to get more involved.

With almost 30 years' experience in Management and Operations in the transportation field, I feel that I can contribute to the Mayoral position with confidence and lead our team of dedicated councilors to making sure our Municipality continues to grow, not just in size or with new businesses, but to grow more closely as a community. We are stronger together, than apart.

I have been watching and partaking in politics since the 2019 Federal election, where I ran in the Hamilton Mountain riding. Although I didn't win, it did give me a better understanding of how the election process works, and how it is important for the public to get involved in their local governments. Either by taking part in School Board meetings, Municipal meetings, or running for a council or trustee seat. So, I thought what better way to get involved in our community than by applying for the Mayoral seat that was unfortunately and untimely made vacant.

Thank you for accepting my application and letter, and I hope you consider me for the Mayor position of the Municipality of West Elgin. I look forward in hearing back from you, and hopefully working beside you all in the near future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Trevor Lee', with a stylized, cursive script.
